Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 19-65 and 74-76 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 8.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-18, 66,67, 69, 77-82 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ethington in view of Chappell.

Ethington shows a base for actuator 50 including an upper flat surface of the bottom wall surface and vertical walls supporting a load thereon. It also includes pair of brackets. The brackets are connected to the angled down tube rather than a horizontal chain stay.

Chappell shows a support for a transmission actuator including two brackets connecting the actuator to a chain stay.

It would have been obvious to one of ordinary skill in the art to mount the Ethington control device to the chain stay, as taught by Chappell, in order to mount the controller proximate the sensing device for a more compact arrangement.

4. Applicant's arguments filed June 25, 2004 have been fully considered but they are not persuasive.

Applicant argues that the prior art device fails to show a self-contained control device that can be removed from the bracket base as a unit. However, applicant has not claimed the

control device anywhere in the claims. Rather, applicant recites a bracket apparatus that is capable of supporting a control device. Therefore, the absence of a self-contained control device in the prior art does not distinguish the claims from the prior art. The prior art shows all of the positively claimed structure and is capable of supporting a self-contained control device that could be removed as one piece. Therefore, the prior art is believed to meet the claims, as broadly and functionally recited.

5. Claims 68, 70-73 allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M Boehler whose telephone number is 703-308-0422. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.
